

Why Should I Pre-Fund?

Final Expenses are on the rise. In 1962, the average funeral service was \$738.00. Today, that average exceeds \$6,500.00. Unfortunately when a family is left with an expensive funeral bill to pay it can increase their grief.

One in every four families will make final arrangements in the next five years. Too often, families make hasty, ill-informed, & needlessly expensive decisions when arranging funeral services for those whom they love.

Now there is a way to Pre-fund final expenses in a manner that you – *and your family* - can afford. A Pre-Funded Funeral Plan will provide your family with the money needed to pay for funeral expenses.
